PROFESSIONAL SUMMARY

Detail-oriented Information Technology graduate with a high-speed data processing capability of 91 WPM and a strong foundation in full-stack web development. Experienced in building real-world systems using Laravel, C#, and modern CSS frameworks like Tailwind, I am now pivoting into the Virtual Assistant space with a proactive commitment to mastering administrative and executive support workflows. I offer technical proficiency in AJAX, jQuery, and SQL, combined with an elite typing speed to deliver efficient, high-volume results for remote teams.

KEY SKILLS

Web Development | High-Speed Data Entry (91 WPM) | Administrative Support | Web Research | Email Management | AJAX | jQuery | Technical Documentation | Database Management | 95% Accuracy Rate | Rapid Tool Adoption | Problem Solving

TECH PROFICIENCY

Productivity & Admin: Microsoft 365, Canva

Communication: Google Meet, Slack, WhatsApp

Web & Data: C#, PHP, JavaScript, SQL, HTML/CSS, Laravel, Tailwind CSS, Bootstrap 5, AJAX, jQuery, GitHub

Tools: MySQL, XAMPP, Microsoft SQL Server

AI & Automation: ChatGPT for workflow automation and learning new software applications quickly

EDUCATION

Bachelor of Science in Information Technology

Capitol University | Cagayan de Oro City, Philippines | 2022–2026

- Graduated as Iskolar Sa Dakbayan CDO

Senior High School Graduate – Accountancy, Business, and Management (ABM)

Kauswagan National High School | Cagayan de Oro City, Philippines | 2020–2022

RELEVANT EXPERIENCE

Web Development Intern

HLM Pharmaceutical – Property Management System | Nov 2025 – March 2026

- Collaborated in a 4-person team to build an inventory system for company assets and supplies using C# and Blazor.
- Developed core logic for Supplies and Supply Requests, managing how consumable items are tracked and requested by staff.
- Built secure Login/Logout functionality and role-based access to protect sensitive inventory data.
- Utilized Entity Framework Core (EF Core) for data persistence and managing database relationships.

Full-Stack Developer / Capstone Project

Inventory Management with Asset Tracking System | Sep 2025 – March 2026

- *Designed and implemented a comprehensive MySQL database schema to handle modules for Purchase Requests (PR), Purchase Orders (PO), and Suppliers.*
- *Engineered accountability and tracking features using logic for Property Accountability Receipts (PAR) and Inventory Custody Slips (ICS).*
- *Integrated jQuery and AJAX for dynamic updates and asynchronous requests.*
- *Ensured data integrity and system security with an audit_logs table and a secure, role-based authentication system.*

REMOTE WORK READINESS

Internet: *Primary: Fiber Connection | Backup: Smart 5G mobile hotspot*

Power Backup: *High-capacity Power Bank for emergency device charging*

Equipment: *Development-ready Laptop*

Availability: *Full-time | Flexible across US (EST/PST), UK (GMT), and AU (AEST) time zones*

LANGUAGES

English: *Proficient*

Filipino: *Native*
