PROFESSIONAL SUMMARY

I am an IT graduate focused on building practical systems and making office workflows more efficient. I have a solid background in database management and am accustomed to handling large volumes of data with high precision. I am looking to apply my technical skills in remote support and administrative roles where staying organized and being detail-oriented are priorities.

KEY SKILLS

Data Entry & Encoding | SQL Database Management | Administrative Support | Technical Documentation | Data Normalization | Inventory Tracking | System Troubleshooting | Fast Learner for New Tools

TECH PROFICIENCY

Productivity & Admin: Microsoft 365, Canva

Communication: Google Meet, Slack, WhatsApp

Web & Data: C#, PHP, JavaScript, SQL, HTML/CSS, Laravel, Tailwind CSS, Bootstrap 5, AJAX, jQuery, GitHub

Tools: MySQL, XAMPP, Microsoft SQL Server

Technical Learning: Fast at picking up new software and technical workflows

EDUCATION

Bachelor of Science in Information Technology

Capitol University | Cagayan de Oro City, Philippines | 2022–2026

- City Scholar (Iskolar Sa Dakbayan)

Senior High School Graduate – Accountancy, Business, and Management (ABM)

Kauswagan National High School | Cagayan de Oro City, Philippines | 2020–2022

RELEVANT EXPERIENCE

Web Development Intern

HLM Pharmaceutical – Property Management System | Nov 2025 – March 2026

- Built an automated system to track company assets, which moved the team away from slow and unorganized manual logs.
- Created the logic for supply requests so the staff can easily track what's available in real-time.
- Set up secure logins and access levels to make sure only authorized people can change inventory data.
- Handled the database relationships to make sure all records stay connected and easy to find.

Full-Stack Developer | Capstone Project

Inventory Management with Asset Tracking System | Sep 2025 – March 2026

- *Designed a database that organized over 1,000 records for orders and suppliers, making the information much easier to manage.*
- *Programmed a tracking system for property receipts to ensure all high-value items are accounted for.*
- *Used jQuery and AJAX to make the system faster so users don't have to wait for pages to reload.*
- *Added an audit log feature to track all data changes, which helps prevent errors and unauthorized edits.*

REMOTE WORK READINESS

Internet: *Fiber Connection (Primary) | 5G mobile hotspot (Backup)*

Equipment: *Laptop ready for technical and administrative tasks*

Availability: *Can work in different time zones and is available full-time*

LANGUAGES

English: *Proficient*

Filipino: *Native*
